

SUMMARY

A web developer with a passion and drive for improving my skills with an understanding that we are learning in this industry for life.

SKILLS

- | | | |
|--------------|----------|-------------|
| ■ HTML5 | ■ Git | ■ Firebase |
| ■ CSS3 | ■ GitHub | ■ Bootstrap |
| ■ JavaScript | ■ jQuery | ■ Sass |

PROJECTS

Meeting Scheduler |

- Developed a meeting scheduler application that allows users to easily create and schedule meetings with others.
- Integrated automatic email notification with Email.js and Sendgrid.
- Incorporated DHTMLX calendar for time availabilities.
- Implemented user login and time scheduling using Firebase.

Music Box |

- Created a personal music player application with custom controls.
- Developed with vanilla JavaScript.
- Designed player bar with volume and song duration sliders.

My Recipe |

- Built a recipe application that finds recipes by ingredients.
- Implemented the food2fork API to get data for the recipes.
- Utilized Node.js for the backend.

Stile Witch |

- Developed a website for a bar and live music venue.
- Integrated Google Maps for location.
- Designed for both mobile and web.

ActionPlus |

- Created a website for a local healthcare startup.
- Built with a PHP contact form.
- Added Wordpress for a blogging platform.
